

100% NUTRITION. 0% HASSLE.

Healthy and Fast Meal Replacement for People on The Go

[SHOP NOW](#)

What is mefill®?

mefill® is a **nutrition-packed, convenient and affordable** all-in-one food.

Mix. Shake. Enjoy.

It really is that easy.

[SHOP NOW](#)

mefill® makes sense

Complete Nutrition

A complete and balanced mix of vitamins, minerals and phytonutrients. No more wondering you're eating healthy.

Easy and Fast

The practical way to avoid unhealthy eating. It takes one minute to prepare and keeps you full for four hours.

Quality Ingredients

The best bioavailable forms of vitamins and minerals with no artificial sweeteners or low-quality ingredients.

Budget Friendly

Replace expensive trips to the grocery store with Mefill for nutrition-rich and convenient meal options at a great price.

[SHOP NOW](#)

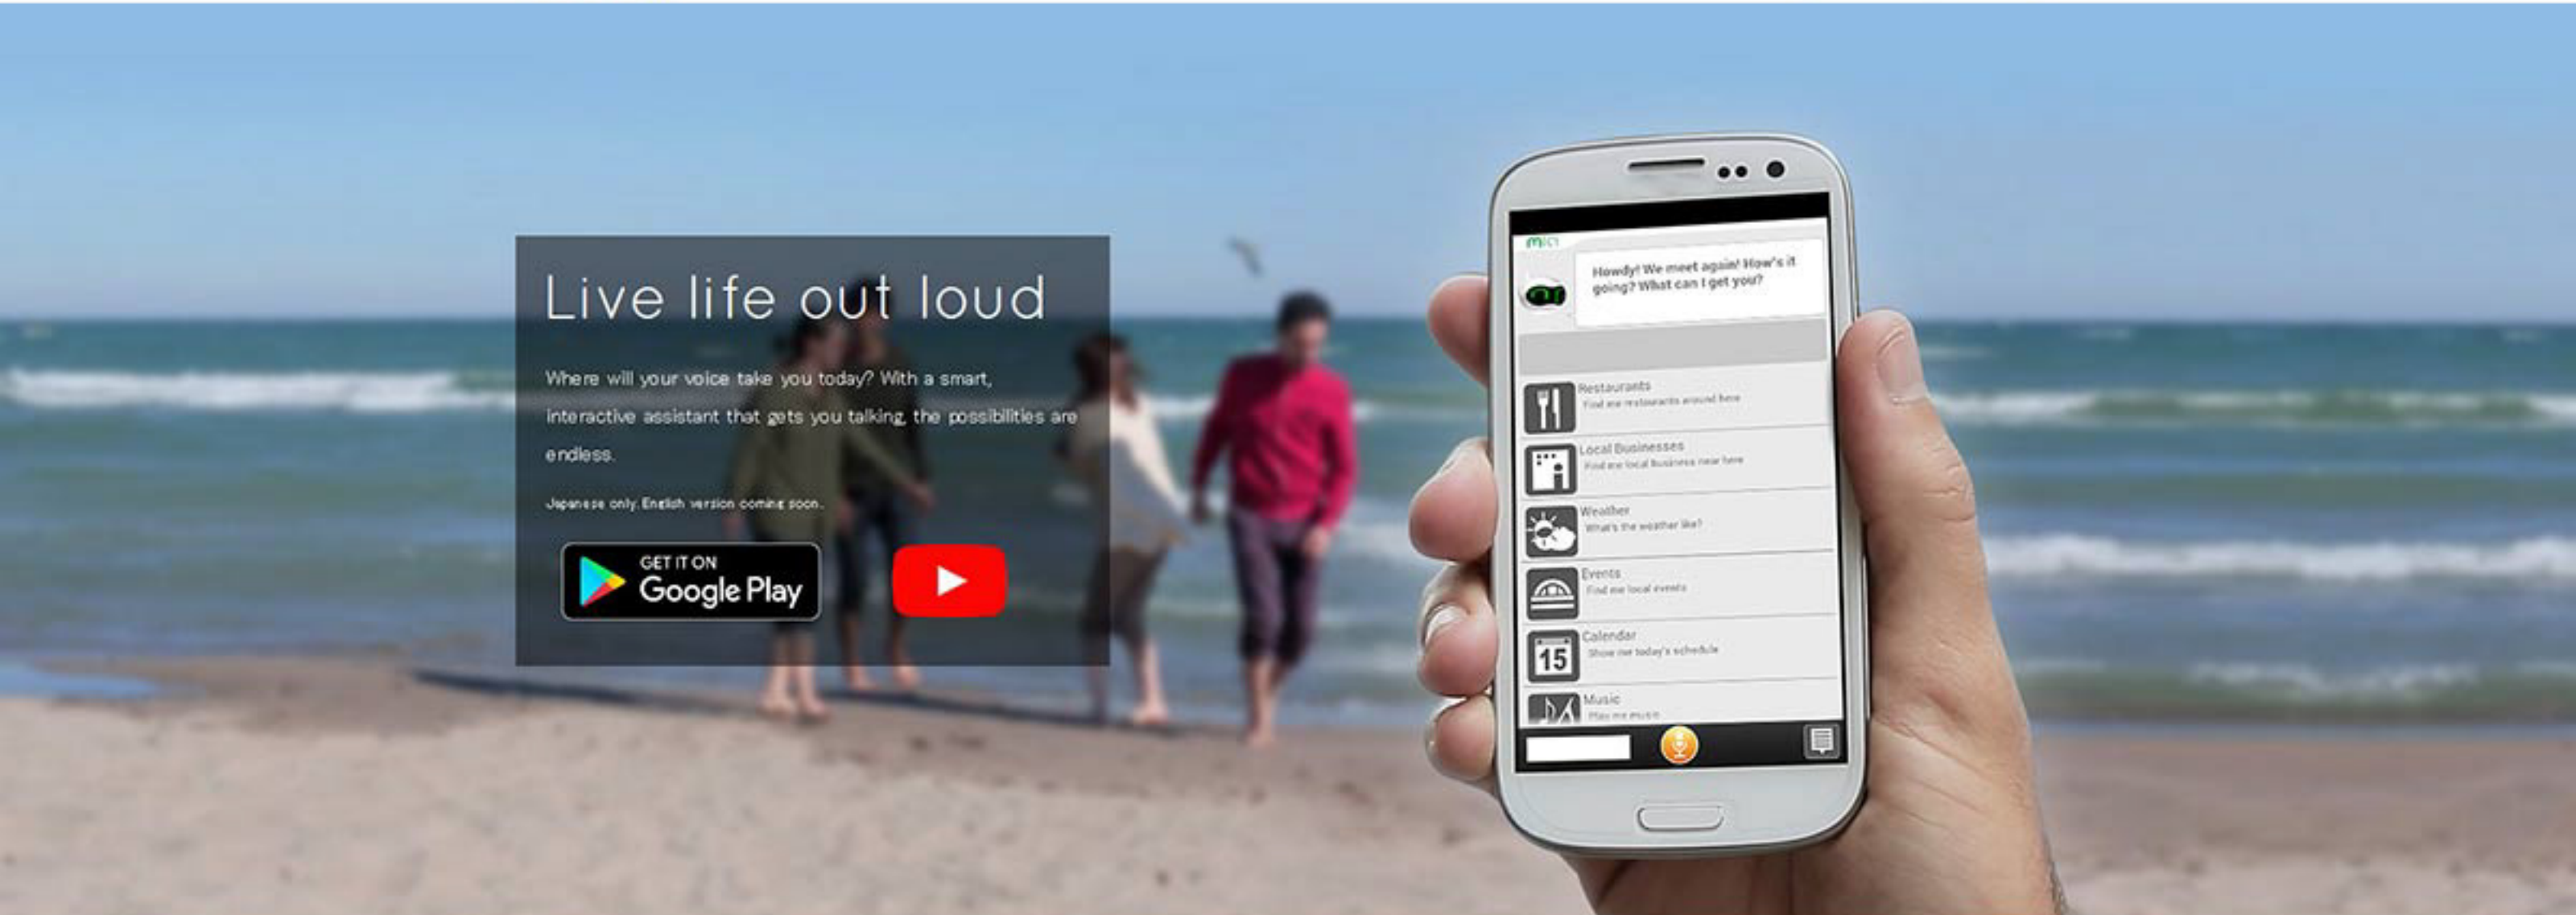

mefill® is a step up

Other leading all-in-one food options can't compare to the nutrition density of mefill™. To get the same level of nutrition you'd have to drink five shakes a day.

We have created the **most nutritious and beneficial all-in-one food** on the planet.

Live life out loud

Where will your voice take you today? With a smart, interactive assistant that gets you talking, the possibilities are endless.

Japanese only. English version coming soon.

What's New

Welcome to mia's new website!

mia is a smart digital assistant that understands and assists you every day and everywhere. Watch our new video and you will see a life with mia. Want to live life out loud? Just download mia!

Talk to mia

The Power of conversation

mia speaks with a conversational ease that is both unique and fun so you can ask questions, get answers, control devices and share information, all in a natural, easy manner.

The main difference between mia and other applications is contextual awareness. mia not only understands what you're saying, but exactly what you need. And if she requires more information, she simply asks.

Ready to talk whenever you are, mia brings conversation back to life.

Understanding

mia understands everything you say and can read between the lines to find your intent. Context is key with mia. She's great at understanding your queries and tailors her replies accordingly.

Conversation

Engaging conversation that leads somewhere, mia uses conversation to help you find what you need and get things done. When she has questions, she simply asks you, just a life a friend would.

Action

More than just talk, once you have what you need, mia makes things happen. Ask mia to book tickets, make purchases, share info and more. You'll get things done, faster and easier, when mia's in charge.

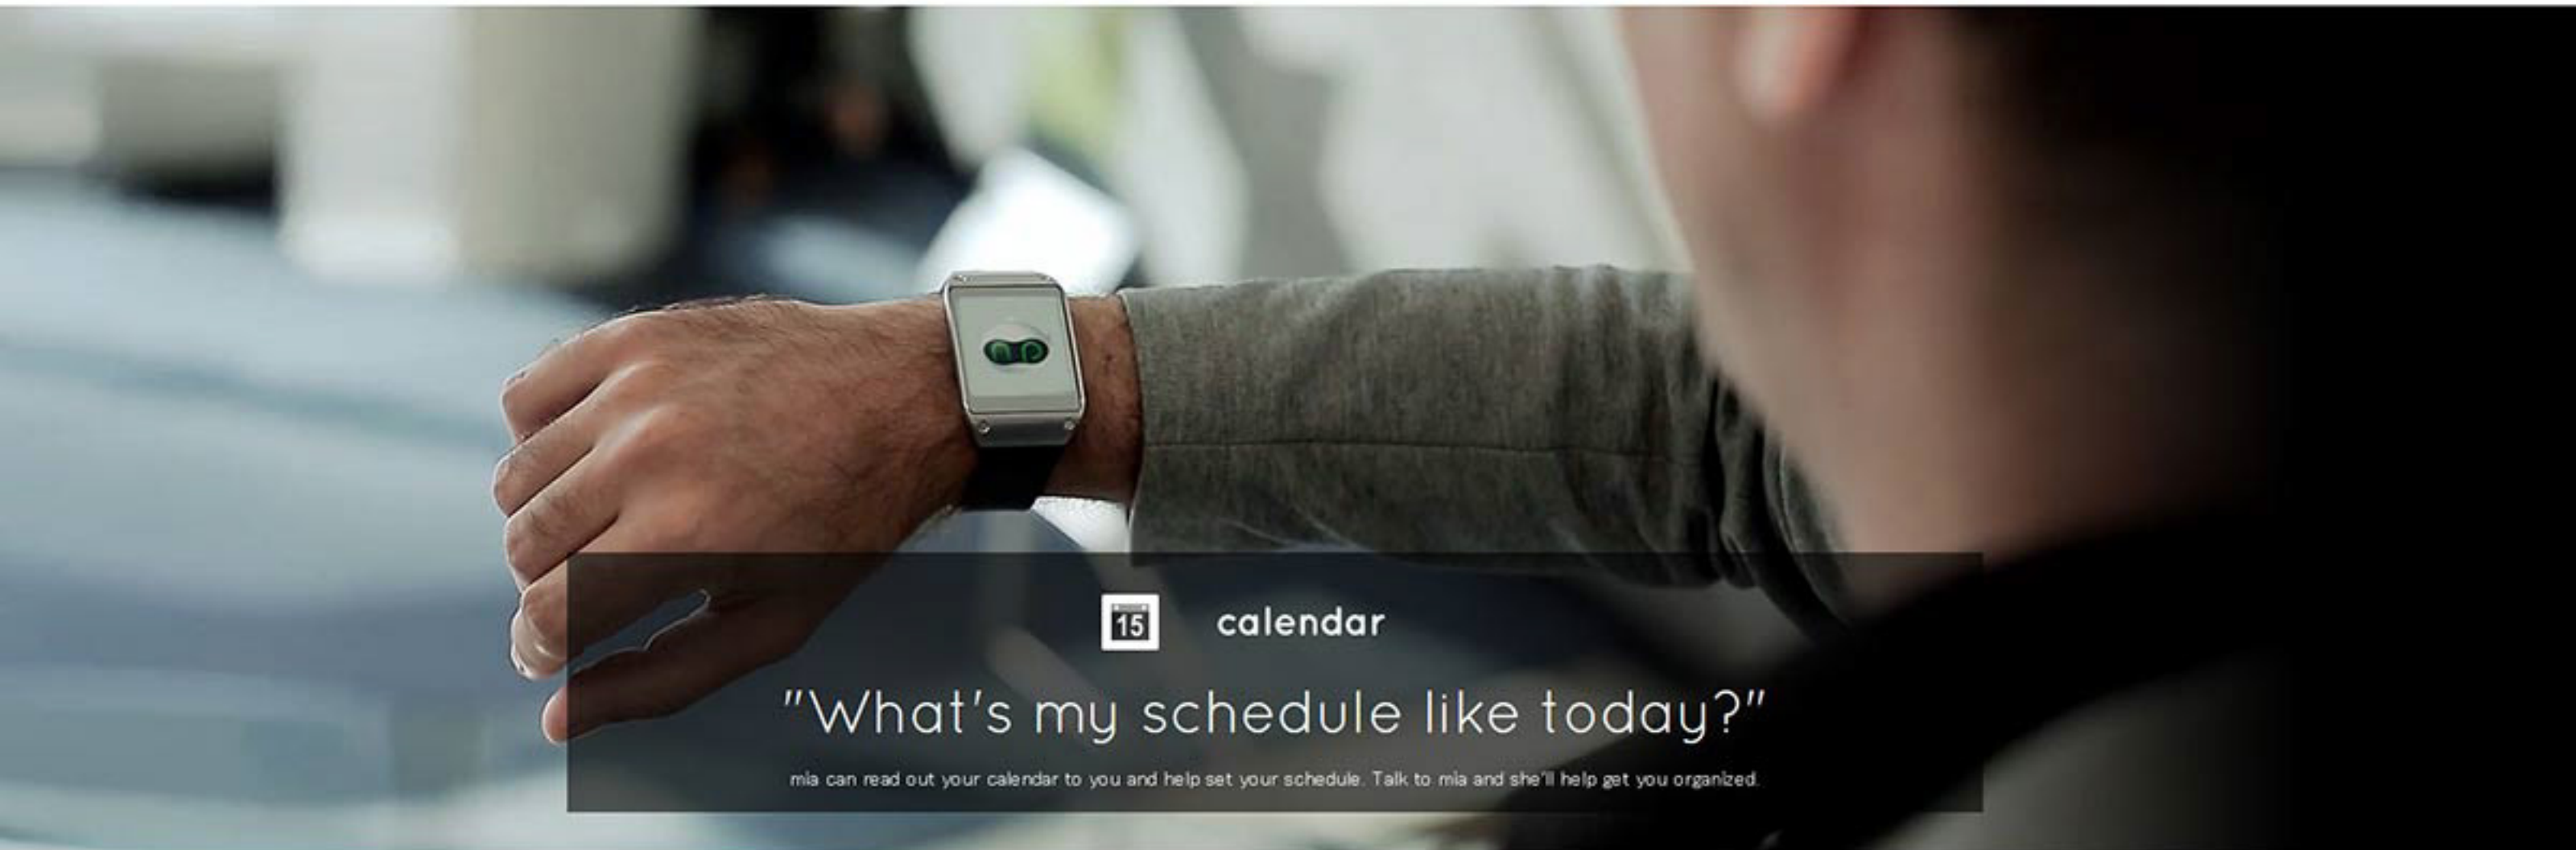

In your hand And in your car

Switch to Drive Mode when you're driving and mia works even harder, providing minimal visual distraction and heightened hands free interactivity. Stay connected with family, friends, and the Internet. With mia in your car, it's simple, safe and fun.

Talk a little, live a lot.

15 calendar

"What's my schedule like today?"

mia can read out your calendar to you and help set your schedule. Talk to mia and she'll help get you organized.

INAGO

Since 1998 INAGO has been a leader in Human-Computer Interaction Solutions from computers to robots. With smartphones populating the hands of billions, INAGO is bringing the next-generation today.

Watch PracticePro 365 in action

See how your team can get the customized insights they need to increase profitability while decreasing direct and indirect costs.

"We do not look for software. We look for solutions. Our decision to work with PracticePro 365 was in our alignment as a partnership. We are better together, and that is what stands at the foundation of any of the strategic relationships we work to create."

Michael Miller
Director of Operations

[Read More About the Partnership >](#)

PracticePro 365 is a unitized practice management software that lets you manage your practice, projects and people from a single data source.

Serve your clients better

Delight your customers and build stronger relationships by having a more holistic understanding of their business.

Do more business

Build contact lists, run marketing campaigns and cross-sell services through a single dashboard.

Improve your cash flow

Enable your staff to enter time and create invoices simultaneously to accelerate cash collections.

Predict future profitability

Identify profitable market segments, pinpoint lost revenue and revise project plans in real-time.

Increase scale and flexibility

Built in the cloud from day one so you can easily access, input and update information at any time, from any device.

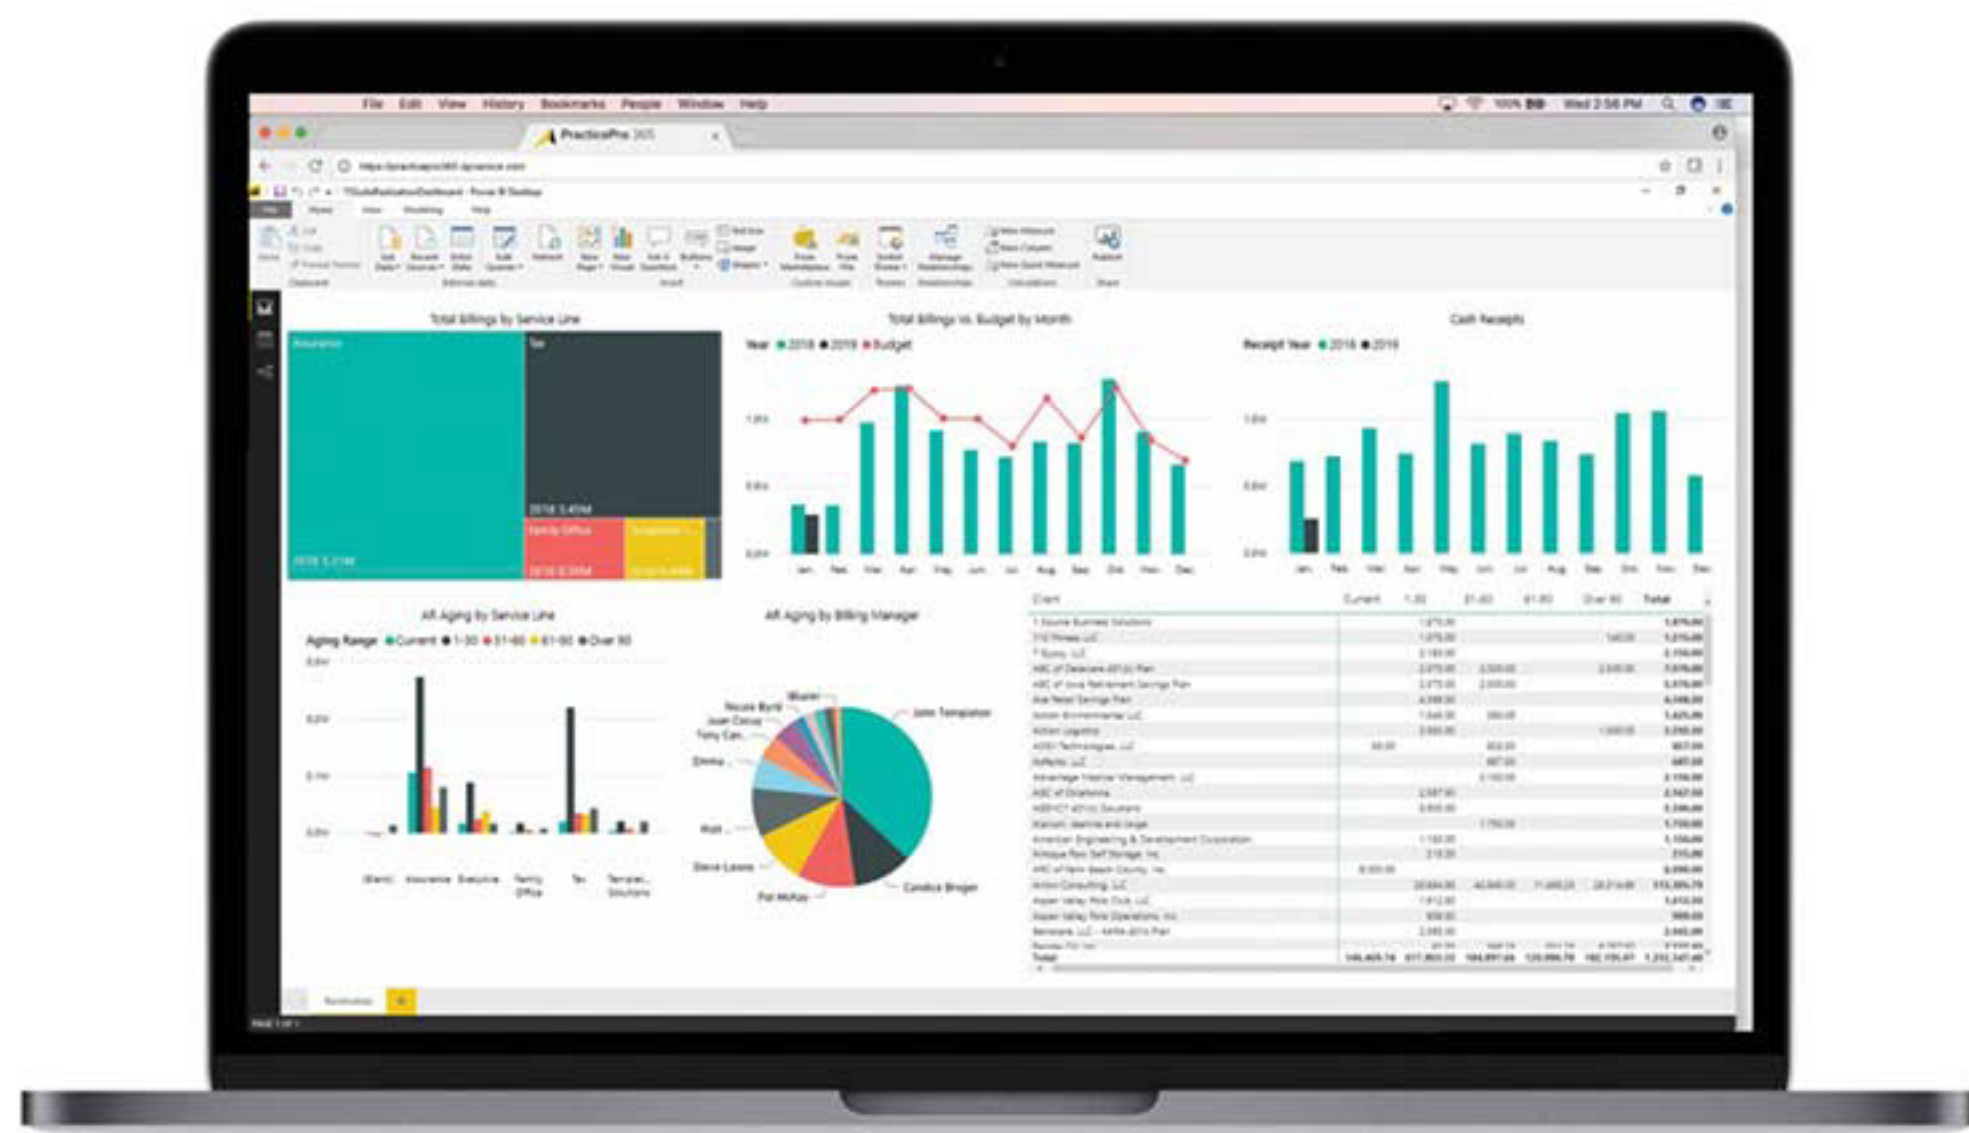

Empower your partners and staff

Serve clients effectively by planning projects using standardized service types and tasks, and monitoring resources in real-time.

Your headlights into the future

More dimensions of data to help you understand the health of your accounting practice and plan for growth.

The number of **cyber attacks** are at an all-time high with no signs of slowing down. To make matters worse, cyber criminals are focusing on small- to midsize businesses, as they see you as easy targets compared to large organizations with dedicated IT security teams.

Don't **fall victim** to these cyber criminals, and don't stress about adding dedicated headcount to stay ahead of these advanced attacks. Focus on what you do best, and let us take care of all your security needs without disrupting day-to-day business operations.

North Tech Group offers a full suite of managed security solutions that prevent, detect and respond to the most sophisticated types of threats, while providing everything from initial design, deployment and configuration, to ongoing management, monitoring, and reporting for continuous, up-to-the-minute protection.

1-on-1 Approach

We work with you to understand your needs, and then design, deploy, and configure the perfect security solution for your business, whether it's the network, Wi-Fi, or endpoints – for both physical and virtual environments.

Intelligent Prevention

We build and enforce security policies to protect your data with intelligent prevention, detection, and response services that provide total security against the most advanced threats, including ransomware and evolving malware.

Reporting Services

We offer reporting services to demonstrate increased value in your IT investments, regulatory and compliance adherence, and a clear understanding of your business environment, including customer analytics through Wi-Fi engagement.

Minimize operational complexity, maximize your IT investments, and experience a significant and measurable reduction in risk by partnering with a managed service provider that specializes in security. You are committed to being the expert at your core business. We are committed to being the expert in security.
